```

```
In [ ]: %sql SELECT * FROM artists LIMIT 5;
```

```
In [ ]: %sql SELECT * FROM time LIMIT 5;
```

0.1 REMEMBER: Restart this notebook to close connection to sparkifydb

Each time you run the cells above, remember to restart this notebook to close the connection to your database. Otherwise, you won't be able to run your code in `create_tables.py`, `etl.py`, or `etl.ipynb` files since you can't make multiple connections to the same database (in this case, `sparkifydb`).
